

**EvoCare expands access to healthcare and welcomes Physio AG as a partner on its digital platform.**

**Furth, Germany, 31. July 2023.** We are delighted to announce the formation of a dynamic collaboration between EvoCare and Physio AG, one of the largest consulting companies for physiotherapy facilities in Germany with an impressive experience of more than 800 implemented consulting projects. This ground-breaking partnership sets the stage for a new era of healthcare innovation and improved patient care.

In just the first month of our partnership, we are already seeing outstanding results. The very first Physio AG partner has successfully enrolled over 150 patients on EvoCare, our innovative healthcare platform. This overwhelming response is a testament to the superior quality and effectiveness of our services.

The imminent launch of our Software-as-a-Service (SaaS) model has us buzzing with excitement. Our dedicated teams have been working tirelessly to ensure the seamless integration of our services into practices. This easy-to-use model will improve operational efficiency and streamline the delivery of patient care, benefiting both healthcare providers and patients.

Through this alliance, both EvoCare and Physio AG are poised to capitalise on remarkable opportunities. We share a common vision to revolutionise the healthcare industry and raise the standard of care. Together, we aim to set a new benchmark for world-class healthcare services that are accessible to all.

It is with great pride that we welcome Physio AG as our new partner," said Dr. Achim Hein, member of the EvoCare Board of Directors.. "Together we are

embarking on a journey to transform healthcare, using technology to improve the lives of patients and healthcare providers alike".

With EvoCare's advanced technology solutions and Physio AG's extensive network and industry expertise, patients will have access to improved care, personalised treatment plans and better overall health outcomes. Our shared commitment to innovation and excellence will drive the evolution of healthcare in Germany.

The benefits of this partnership extend beyond the organisations. Patients will experience greater convenience, shorter waiting times and a more personalised approach to their healthcare needs. By combining our resources, healthcare professionals will be empowered to provide the best possible care to their patients.

This momentous collaboration aligns with our shared mission to transform healthcare to meet the needs of the modern world. Together, we are embarking on a journey to create a more connected, accessible and patient-centric healthcare ecosystem.

Stay tuned for more updates on our partnership and the upcoming launch of our revolutionary SaaS model. Join us in celebrating this cutting-edge alliance that heralds a brighter future for healthcare in Germany.

## **About EvoCare Holding AG**

EvoCare Holding AG is a leading digital health provider and a pioneer in the development of digital health technologies. It stands out as the first company to patent a home therapy platform - the EvoCare Method®.

With over 20 years of experience in digital medicine, the EvoCare Method® aims to help healthcare providers expand their therapy offerings by directly improving the performance and reach of therapists. The result is more efficient and accessible therapeutic care for all.

The EvoCare platform seamlessly integrates the convenience of digitized therapy with the personalised care that is critical to its overall success. This unique combination ensures that the platform cannot be used without the necessary patient-therapist interaction, guaranteeing both the safety and effectiveness of the therapy.

With its strong focus on digital platforms, EvoCare is at the forefront of transforming the healthcare landscape.

## **About Physio AG**

Consulting firm for physical therapy entrepreneurs in primary and secondary healthcare. Specialised in initiating and supporting new regional healthcare projects. Working with stakeholders such as the German Pension Insurance Association, statutory health insurers and rehabilitation clinics.

The focus is on education to make patients aware of evidence-based strength and mobility training. The combination of therapy and training is used as a decisive competitive advantage. The Physio AG network is based on scientific knowledge and many years of practical experience with physiotherapy partners throughout Germany.
