

## **EvoCare and EliteFit.AI form partnership for AI-powered patient care**

**Fuerth, Germany, 09 February 2024. EvoCare Japan and EliteFit.AI today announced a groundbreaking partnership that will revolutionise the health and fitness landscape. By combining their expertise in digital health platforms and AI-powered motion analysis, the two companies will fundamentally change the way patients and caregivers are reached.**

EvoCare's digital health platform has already begun to transform patient care in Europe and Japan by enabling unprecedented availability and duplication of healthcare professionals. By integrating EliteFit.AI's groundbreaking AI motion technology, EvoCare will take its innovation to the next level. This integration will not only increase patient engagement, but also improve the overall quality of care and set a new standard of excellence.

EliteFit.AI, a recognised pioneer in AI innovation from Singapore, brings unprecedented AI capabilities to EvoCare care areas such as physiotherapy, nursing and rehabilitation.

With its groundbreaking technology, EliteFit.AI revolutionises the user experience and enables users to achieve their goals more effectively than ever before. The partnership will start with the Japanese subsidiary "EvoCare Japan" in Tokyo and, after a successful launch, will be extended to the international activities of EvoCare Holding AG.

"We are very excited to partner with EliteFit.AI to further shape the future of healthcare," said Yoshiki Sasaki, board member of EvoCare Japan. "By integrating EliteFit.AI's advanced solutions into our EvoCare platform, we are confident that we can deliver exceptional value to our customers and improve patient outcomes," said Dr Achim Hein, board member of EvoCare Holding AG.

This partnership is more than a pooling of technological expertise - it is an expression of a shared commitment to helping people live healthier and more fulfilling lives. Together, EvoCare and EliteFit.AI aim to redefine the future of health and care, ushering in an era of innovation and transformation that will benefit countless people.
